**For Uncle Sam's Law Makers.**  
Detached Wings to Capital  
for Use of Legislators.

Uncle Sam is preparing to supply his law-makers with individual offices. Two of the most magnificent buildings in the country are being put up by the National Government for the exclusive use of Senators and Representatives in Congress. Each will occupy a block and will cost \$2,500,000. They will form detached wings to the Capitol.

Heretofore Congressmen had no regular offices. There has been no system about the accommodations. Now each branch of Congress will have a handsome office building, with uniformed attendants, a post office and telephone and telegraph service.

The southern building, for the House, will have 429 rooms, one for every one of the 410 Representatives and 19 for future growth in membership. The Senators will get the better of the bargain in space, every Senator having a room for himself, one for his Secretary, and a bath-room.

Though only four stories high, each of them will have as great a quantity of hollow tile brick in it as many a sky-scraper the height of which makes fire-proofing an absolute necessity.

The character of Washington architecture demands that the buildings be low. Fire will have no chance against them.

The exterior of these Capital wings will be white marble.

## Is Your Cow a Fine Milker?

A worthy squire had a cow that always kicked and reared when milked. He decided to get rid of it, and, calling one of the farm hands, told him to take the animal to market.

"Sell the brute," he said, "but mind you, tell no lies. I've been unlucky in my purchase, but that's no reason why I should deceive others."

Two hours later the man returned from market with a larger sum than the squire had expected. "I'm sure you lied about that cow," he said.

"Not a bit of it," replied the man. "Every time I was asked if she was a good milker I simply said: 'You'll get dead tired of milking before you get all her milk. They asked no more questions, so that I didn't volunteer any more answers.'"

## Lexington Post Master.

Postmaster General Cortelyou has decided upon the Lexington, Ky., post office case and the nomination of Tom L. Walker, Secretary of the Kentucky Republican State Central Committee, has been sent to the Senate.

## Acquitted.

At Campton, B. J. Ewen was acquitted, charged with perjury.

## THE BURLEY LOOSE TOBACCO WAREHOUSE

SOUTH BROADWAY, - LEXINGTON, KY.  
Has brick building which holds tobacco in case regardless of atmospheric changes, conducts daily sales, offers competition on sales, furnishes suitable quarters for drivers and teams FREE, open day and night.

## LAWS

**FOR THE NATIONAL CAPITAL**  
Effort to Stop the Sale of Whiskey.

The District of Columbia, in which Washington is situated, is unfortunate in some respects. It has no elective franchise and the Congress of the United States is its common council. For that reason many good people all over the country flood that body with petitions and memorials urging the enactment of this or that sort of legislation.

At present the people of the district are being enlightened as to what settlement should be made of the liquor question. The impression must have gone abroad that Washington is the wickedest city in the land and that the rum shops form the greatest industry of the national capital. From Columbus, Ohio, there recently went into the capital an enormous batch of letters and petitions urging Congress to prohibit the sale of liquor in the district. Iowa contributed its share to administer to the moral condition of the capital city.

The excise laws are rigid and the sale of liquor, which is in the hands of three commissioners not beholden to voters—as there are no voters—is regulated so strictly that complaint is often made that personal liberty in that regard is interfered with.

Dyspepsia is our national ailment. Burdock Blood Bitters is the national cure for it. It strengthens stomach membranes, promotes flow of digestive juices, purifies the blood, builds you up. 30-4

## Said He Would Kill Himself.

"If you do not consent to see me I will commit suicide," writes Count Castellane to his former wife, Helen Gould. If there were a good reason why Madame Gould should not see the little count it is furnished by the promise to commit suicide if she does not see him. But there is no more chance of his keeping that promise than there was of his keeping his promise to love, honor and cherish the American girl who bought him with her father's millions.—Lexington Herald.

**Williams' Carbolic Salve With Ar-nica and Witch Hazel.**

The best salve in the world for cuts, bruises, sprains, ulcers, salt blains, tumors, chapped hands, and all skin eruptions. It is guaranteed to give satisfaction or money refunded. Price 25c by druggists. Sold by Thos. Kennedy, 26-1st.

## Improved Roads in Bourbon.

The Bourbon Fiscal Court has purchased one ten-ton steam roller, one 600-gallon sprinkler and one rock scatterer to be shipped April 2 ready for immediate use on the county turnpikes. There are about 300 miles of macadamized roads in the county which, since the roads were bought and made free of toll, have cost the taxpayers approximately \$30,000 a year to keep in only fair condition.

## THIRTEEN

**Causes for Grievance By Committee of Negroes.**

Thirteen causes for grievance were filed with the chairman of the State Railroad Commission, C. G. McChord, by J. C. Dean, chairman of the committee of colored men selected to present the protests of colored patrons of the railroads against inadequate traveling accommodations. The committee were instructed to submit their charges in writing.

The complaint of the colored men recites the fact that they are huddled together in a portion of one coach only partially divided from the rest of the same coach and that the coach at best is a second-class one. They aver that the compartment is often used as a smoker by white passengers, is used by newsboys and train employees and that it is often used as a dressing room by white passengers. They complain that the other portion of the coach is invariably used as a smoker and that the colored compartment is always filled with smoke. The lack of toilet rooms and poor sanitary conditions are proclaimed in a lengthy paragraph and rowdiness is said to be permitted to go on unchecked by the railway employees.

**Senator Expelled on Bribery Charge.**

At Denver, Col., on Wednesday, Senator Richard W. Morgan, Republican, was expelled from the State Senate by a vote of twenty-nine to one. His expulsion was recommended by the majority of a special committee of the Senate which found him guilty of having accepted a bribe.

## \$2,000,000 To Remove Lake.

The United States Steel Corporation is preparing to spend nearly \$2,000,000 in draining Trout Lake, near Grand Rapids, Minn., and reducing what is now a beautiful body of water four miles long and a mile wide, to a mere mud hole. Trout Lake is near the Canisteo Mine. Into the deep shafts that have been sunk water from the lake pours constantly, making it necessary to work the pumps day and night. So the Trust decided to get rid of the lake.

## THIEF ARRESTED.

**Gobbler Settles Question of Ownership at Owensboro.**

At Owensboro when Mrs. E. L. Lyons, of Yelvington, called "Gob" to 500 turkeys in a pen at a produce house, a big gobbler ran from the bunch and ate corn from her hand. With this as the principle evidence a warrant was taken out against Jesse McIntyre and he is now under bond to answer in Circuit Court on a charge of larceny.

Lyons, who is a farmer, went to a produce house and identified a gobbler and three turkey hens, which, he said, had been stolen from him. The proprietor doubted his ability to identify his turkeys among so many.

"Well," said Lyons, "my wife can come here and call that gobbler and he will answer." The test was tried and it worked. Mr. Lyons was told that the turkeys were brought in by Jesse McIntyre, and the warrant followed.

## Good Enough.

J. F. Clark, of Clinton, Mo., writes: "Change my address to Indian Fields, Ky. Old Kentucky is good enough for me."

Delight in duty softens its severities.

## WOMEN BARRED

**From Catholic Choirs in a Circular Letter Issued by Archbishop Moeller of Cincinnati.**

An official announcement barring the ladies from the choirs of the Catholic Churches of the archdiocese of Cincinnati has been prepared by Archbishop Moeller and will be read in all the churches next Sunday morning at high mass.

According to the order of the Archbishop the ladies must leave the choir on the first Sunday in Lent, which is on February 17, Next Sunday, therefore, will be the last one for mixed choirs in this archdiocese.

## Fortunate Author.

The Boyle County Herald says: Mr. Will Levington Comfort, the famous young author who recently located in Danville, is having marked success. The Youth's Companion has accepted twelve stories from his pen at \$100 each; Ainslie's accepted a short story Saturday at the same price and Lippencott's accepted the "White Sepulcher" last Wednesday at \$450 and sent check with acceptance. He has requests for more stories than he is able to finish.

## Kentucky Wagons for Panama.

The Kentucky Wagon Works, of Louisville, is filling a contract for United States escort wagons of a high type, to be used in Panama, the contract calling for their delivery by May 1. The wagons weigh from 1,600 to 1,800 pounds, and will be used to transport freight and infantry.

In conversation recently with a politician who knows Kentucky like a book, this was given us to ponder. "To be frank with you I do not have much faith in the cohesiveness of the temperance vote. Political prejudice runs much deeper than temperance convictions, and men will refuse absolutely to support their man when the prejudice strings are pulled."—Kentucky Issue.

**Midway's Expenses Less Than Receipts.**

During the year the amount of \$7,506.65 was received from different sources, with expenditures for the year of \$7,108.55, leaving a balance of \$397.10. The city began the year with an overdraft of \$601.34 and during the year spent nearly \$800 on improvements to streets and the city jail, in addition to the regular expenses.

## GRAND JURY

**Indicts Democratic Leaders in Lexington.**

The Fayette county grand jury, which has been probing the alleged election frauds perpetrated in Lexington at the last November election, returned indictments last Tuesday against several prominent Democratic city officials and members of the police and fire departments, charging them with violation of the election laws, in conducting the election on November 6, 1906. The list follows:

Moses Kaufman, City Auditor, ex-Representative and Chairman of the City Committee.

Fred Lazarus, Alderman and ex-member of the Board of Education, J. J. Reagan, Chief of Police.

D. J. McCarty, member of the Detective Department.

James Grant and J. L. Dineen, members of the Police Department.

William Sullivan, member of the Fire Department.

The indictment against Mr. Kaufman charges that acting as judge of the election in the Merino street precinct, in the primary election for State officers, held on last November 6, he "willfully and unlawfully marked and stamped the ballots of divers electors in the presence of other voters and of the election officers, and that said electors were not blind and did not so declare themselves on oath, and were not in any way physically disabled from marking their own ballots, and this was contrary and in violation of the election law."

Fred Lazarus, who was clerk in the Jefferson street precinct, is charged with the same offense.

The indictments against the other five charge them with being and remaining within fifty feet of the election booths, in violation of the election law.

## FRISCO

**LOSING ITS ALASKA TRADE.**

**Earthquake Diverted it to More Northern Ports and it Will Not Come Back.**

Seventy-five per cent. of the Alaska trade has been lost to San Francisco by the earthquake and diverted to Seattle and Tacoma, according to the statements of Benjamin D. Crocker, Collector of Internal Revenue for Washington and Alaska, in an interview in New York City. When everything was ruined in San Francisco trade naturally sought the more northern ports and there is no reason why it should be ever enticed back to its former channels.

## OBSERVATIONS.

The chances are that a man will call "hard luck," or "bad luck," against you, is some wicked thing, some vicious habit which is counteracting all your efforts and keeping you down.

The strength of will is the test of a young man's possibilities.

There is a divinity in the meanest man.

Every man stamps his own value upon the coin of his character in his own mind, and he cannot expect to pass for more, and should not be disappointed if people do not take it for more than its face value.

It is a grander thing to be nobly remembered than to be nobly born. The door between us and heaven cannot be open while that between us and our fellowmen is shut.—Success.

To one who is given to nagging should be compelled to hasten through life with the speed of a race horse.

If you would have a big crop on your farms get ready.

Garden seed should be selected now and early tomato seed should be in the hot beds.

Much business has come to those who have labored wisely and cautiously the year past.

The incubators in practical hands are yielding large hatches now. Such hatches will yield profitably from the early brooding markets.

## MOVE ON.

Is he knocking? Then keep close watch and you may be astonished. His own floor may need sweeping.

## WATCH HIM.

The man who would be kept under surveillance is he who would accept something for nothing, and who does not keep his own traces straight.

## RIG BUSINESS.

Wash Bros., clothiers and furriers, report the year just closed the largest in the history of their establishment. They advertise in the ADVOCATE.

## WILL KILL THAT BEAR.

The secular press can and will keep an eye on this great power and see the saloons go out of business. They are declaring against rum and it must go.

## COMING.

The Paris people and the citizens of Bourbon county as well as very much interested on the temperance question and if the Court of Appeals declare the County Unit Bill constitutional the county will go dry. The same favorable report comes from Franklin and it now appears that almost every county in the State is ready to eliminate the saloons. Wise heads and keen, active, cool-headed workers will accomplish the desired ends. Montgomery county would be among the dries with the people voting their sentiments on the liquor question.

## SALOONS IN TENNESSEE DOOMED.

Gov. Patterson, of Tennessee, Friday signed the Pendleton bill, and the Fount anti-racketeering gambling bill. The Pendleton bill provides for the extension of the Adams law to the entire State. The Adams law provides that in all towns of 5,000 or less incorporated after the passage of the bill no saloons shall be allowed within four miles of a church or school house. The Pendleton bill is more drastic, and saloons are barred from any town, no matter what size, incorporating after today.

Already a bill has been introduced in the Tennessee Senate to legalize a special election at Knoxville so as to allow the citizens of that city to decide whether they wish to reincorporate so as to rid their town of saloons.

The Fount anti-racketeering gambling bill will serve to drive rackets from the State, as it is admitted that no effort will be made to conduct meetings where betting is not permitted.

Our readers have this opportunity for seeing what our neighbors are doing.

When the people of Kentucky are fully awake they will banish the legalized saloon. Can a man really love the Christ and be an advocate of or portion of the saloon as a daily custom?

It were good for Christians never to enter a saloon for the purpose of drinking liquor.

## FALSE REGISTRATION.

The grand jury at Lexington last week returned indictments against 499 persons for false registration. This looks like wholesale fraud had been committed intentionally or willfully. These were registered as Democrats to vote in the Mayoralty race. Men who will, knowing, secure false registration, and vote the same, or who will stuff a ballot box, or knowingly take a vote cast for the opposing side, are, in our estimation, corrupt, however honest they be in other affairs. A vote is a vote, a horse is a horse, a dollar is a dollar, even a vote has an intrinsic value; theft is theft, whether the thing stolen is a vote, a horse or a dollar; all things are not fair in politics. The man who is dishonest in an election deserves to be watched, for given the same opportunity for secrecy or being shielded from exposure, and he would be tempted to take something else that does not belong to him.

## A WARNING.

The Republicans have no easy task in the fight to be made against the candidacy of Mr. Hager. It was so successful in promoting Gov. Beckham's candidacy in 1903, will he not be just as strenuous, to say the least, in furthering his own in 1907? A short and thoroughly organized campaign is the need of the Republican party this year. —Louisville Herald.

This editorial, coming from the Republican organ of the State, carries with it the idea that time and money spent in a campaign against Mr. Hager would be worse than foolishness. Judge Hager will make a correct, an ideal Governor; the people know it, and will give him their support. Expect a rousing majority and you will not be disappointed.

The Indiana House passed a bill compelling the courts to fine and imprison men who violate the liquor laws. A strong lobby of druggists tried to kill the bill, which is severe on druggists and seal-eyes for illicit sale of liquors.

## EFFECTIVE.

This is the way to enforce law. A negro woman went from Lexington to Maury on Thursday with whiskey and proceeded to sell. She was discovered, arrested, tried on Friday and fined \$75 and failing to pay or give bond was sent to jail. Such prompt action will have the desired effect.

## THINK ON THIS.

"Two Captains will sink a ship. Think on this. Two men have the same mind, pull the same way and the results are remarkable. But two captains, one of one mind and one of another, pulling just opposite, neither count for anything but destruction. It is just so in all unions, corporations and firms.

## CRANKS.

A level headed man who had been bringing things to pass, rising above obstacles, while on bended knees before retiring to rest, thus approached a throne of mercy. "Lord, deliver me from my fool friends. I am able to take care of my enemies." There is an object lesson in this.

## \* REMOVE THE BEAM.

You folks who are always finding fault with others, will you just pause from the rush of business, turn the lights on and take an invoice of yourself? A condemned mass of corruption will be revolting to the sight. Remove that beam if you would take the mote from your brother's eye, and the mote from your brother's eye.

## BE CONTENTED.

Mr. Sterling on a boom! Always a business boom, but so soon as a nice sum has been laid up by the man of poverty yesterday and prosperity today, he seeks other locations for the very reason that his teaching had been thus: Beyond our borders are greater opportunities. They have gone forth to return, having added to their experience disappointments and lost opportunities. We would advise the working man to buckle down and save earnings, and as to the knockers, it matters not where they go, just so they get away.

## FEDERATIONS FOR EQUAL SUFFRAGE.

"The Connecticut Federation of Labor has adopted a resolution endorsing woman suffrage. Other State Federations which have recently taken similar action are California, Colorado, Iowa, Indiana, Maine, Massachusetts, Minnesota, New Hampshire, Ohio, Oregon and West Virginia."

The women are as well prepared to do intelligent voting as men. The only question is this: Would women elevate politics or would politics delude women?

## WORK TOGETHER.

The prohibition party asks, will the political parties stand hitched? And the political parties retort what will the prohibition party do? Will it stand hitched? If the prohibitionists would succeed they should follow these teachings, doing as they would be done by, and likewise the political parties.

Representative Webber, of Ohio, author of the measure, and a number of local ministers made addresses. About two thousand people attended.

## Obituary.

Samuel J. Stone, after nine weeks illness, departed this life at his residence north of this city, Saturday morning, January 27, 1907. He was born in Bath county, Kentucky, March 4, 1846, and removed to this county with his father, General Samuel Stone, in 1851. He volunteered and served in the Union army, under Col. William Farrow. He was a member of the G. A. R. of this city. February 8, 1865, he was married to Miss Ella Fall, also a resident of this city. Besides her, he leaves surviving him, three children: Lane Stone of Terre Haute, Arthur Stone and Walter Stone of this city and three brothers: Alfred Stone of Mt. Sterling, Kentucky, Henry L. Stone of Louisville, Ky., and Dr. R. F. Stone of Indianapolis. His mother, Mrs. Sally Stone is still living and resides with her son in Louisville, having almost reached the age of 91 year.

Mr. Stone and his wife joined the Presbyterian church early in their married life, and continued consistent members of that denomination until his death. He had many friends and was beloved by all his neighbors. —Indianapolis.

Mr. George L. Willis, a friend of our youth, an excellent gentleman and worthy citizen, trained in newspaper work, is to be secretary of Congressman Harvey Helm of the Eighth district.

## INTERESTING FACTS

Compiled from the Report of the County Board of Supervisors.

County Clerk John F. King furnishes the following compilation from the report of County Board of Supervisors. Valuable service was rendered him by G. B. Swango, one of the Board.

Amount of bonds, \$1,000; amount of notes secured by mortgage, \$169,149; amount of other notes, \$203,530; amount of accounts, \$50,719; amount of cash on hands, \$13,242; cash on deposit in bank, \$170,308; amount of all other credits or money on interest, \$1,500.

Amount of stock in corporations, \$190; number of acres of land, 117,638; value, \$5,380,780; number of town lots, 1,068; value, \$1,326,925; number of thoroughbred stallions, 10; value, \$2,405; number of thoroughbred and standard geldings, 15; value, \$913; number of thoroughbred mares, 83; value, \$5,290; number of stallions of common stock, 24; value, \$3,295; number geldings, mares and colts of common stock, 2,112; value, \$94,520; number of mules and mule colts, 966; value, \$53,145; number of jacks, 28; value, \$3,725; number of jennets, 68; value, \$2,160; number of registered bulls, 3; value, \$225; number of registered cows and calves, 37; value, \$945; number of bulls, cows, calves, etc., of common stock, 9,168; value, \$194,219; number of sheep, 6,762; value, \$19,668; number of hogs, 4,090; value, \$15,790; value of agricultural implements, \$8,350; number of stores, 111; value, \$188,520; number of school children, 2,124; pounds of tobacco, 1,729,000; pounds of hemp, 157,000; bushels corn raised, 254,780; number acres corn, 3,351; number of acres of tobacco, 1,374; number of dogs over four months of age, 1,643.

The Assessor only returns 2,512 males over 21 years of age—1,849 white and 663 colored—which is evidently an error, as there are over 3,000 voters in the county.

The total assessed value of property is given as \$6,045,467, an increase of \$287,295 over 1906. Add to this the assessment of the banks —Mt. Sterling National, \$35,160; Traders' National, \$34,880; Montgomery National, \$39,520; Exchange, \$42,525—total, \$152,085, and a grand total of \$6,217,552 for county purposes alone.

The Board fixed the assessment on the banks at the rate of 75 cents on the \$100.

John W. Jones, banker, North Middletown, who has been operated on for appendicitis is improving.

If you would have a big crop on your farms get ready.

Garden seed should be selected now and early tomato seed should be in the hot beds.

Much business has come to those who have labored wisely and cautiously the year past.

The incubators in practical hands are yielding large hatches now. Such hatches will yield profitably from the early brooding markets.

#### MOVE ON.

Is he knocking? Then keep close watch and you may be astonished. His own floor may need sweeping.

#### WATCH HIM.

The man who would be kept under surveillance is he who would accept something for nothing, and who does not keep his own traces straight.

#### BIG BUSINESS.

Walsh Bros., clothiers and furnis-  
 ers, report the year just closed the largest in the history of their establishment. They advertise in the ADVOCATE.

#### WILL KILL THAT BEAR.

The secular press can and will. Keep an eye on this great power and see the saloons go out of business. They are declaring against rum and it must go.

#### COMING.

The Paris people and the citizens of Bourbon county as well are very much interested in the temperance question and if the Court of Appeals declare the County Unit Bill constitutional the county will go dry. The same favorable report comes from Franklin and it now appears that almost every county in the State is ready to eliminate the saloons. Wise heads and keen, active, cool-headed workers will accomplish the desired ends. Montgomery county would be among the drys with the people voting their sentiments on the liquor question.

## SALOONS IN TENNESSEE DOOMED.

Gov. Patterson, of Tennessee, Friday signed the Pendleton bill, and the Foust anti-race-track gambling bill.

The Pendleton bill provides for the extension of the Adams law to the entire State. The Adams law provides that in all towns of 5,000 or less incorporated after the passage of the bill no saloons shall be allowed within four miles of a church or school house. The Pendleton bill is more drastic, and saloons are barred from any town, no matter what size, incorporating after today.

Already a bill has been introduced in the Tennessee Senate to legalize a special election at Knoxville so as to allow the citizens of that city to decide whether they wish to reincorporate so as to rid their town of saloons.

The Foust anti-race-track gambling bill will serve to drive races from the State, as it is admitted that no effort will be made to conduct meetings where betting is not permitted.

Our readers have this opportunity for seeing what our neighbors are doing.

When the people of Kentucky are fully awake they will banish the legalized saloon. Can a man really love the Christ and be an advocate of or portion of the saloon as a daily custom?

It were good for Christians never to enter a saloon for the purpose of drinking liquor.

#### FALSE REGISTRATION.

The grand jury at Lexington last week returned indictments against 499 persons for false registration. This looks like wholesale fraud had been committed intentionally or wilfully. These were registered as Democrats to vote in the Mayoralty race. ### Words of Commendation. Warning About Stolen Packages.

We make extracts from a letter as follows:

Flat Creek, Ky., Feb. 4, 1907.

Gentlemen: I have for near two months been confined to my room and bed, but as it is about the first sickness of any protraction during my life I would hardly feel justified in setting up any complaint, but rather to be thankful to "Him who doeth all things well" for the blessings in the past. Possibly you may know that I am a native of the Green Mountain State. I have a sister who is living ten years younger than I, living in Burlington, that State. Mrs. A. F. Tupper, who is, or might be called rather, a leader in ladies' temperance work. Now from the fact of so much whiskey being manufactured in this State and so very much crime caused by its use, Kentucky has gotten rather a bad reputation, at least in some parts of New England.

I have sent to my sister at different times several copies of the Advocate, one of which gave the per cent. of counties now local option. I think 95 out of the 119. In reply she seemed perfectly surprised, but says I like your editor. He is outspoken for the right.

On last Wednesday, January 30th, my wife went to your town and in the back of the buggy had a bucket of eggs and another bucket filled with dressed rabbits which she was taking to her mother and friends. These were both missing when she got to her mother's. I have in the past lost a package or two when coming out and since then, when not raining, throw the top back to keep the little rascals out. You might make mention of this to put others on their guard.

Yours with much respect,  
J. W. FASSETT.

Look at Roth Bros' window this week. It's a hummer.

### COURT FACTS IN NICHOLAS.

Circuit Court convened at Carlisle last week.

Pete Allen and Wm. Baker were fined \$20 and cost for disturbing the temperance meeting in Henryville last fall.

George Simpson was fined \$20 and cost for selling whiskey without license.

W. R. Davidson was fined \$75 and costs for illegal sale of beer in one case and \$25 and costs in another.

### Wanamaker's Residence Destroyed.

The summer residence of John Wanamaker, near Philadelphia, with its furniture, paintings, etc., was burned on Friday night. The family live in the city during the winter, hence the house was unoccupied, but looked after by an employee. The house had fifty rooms, each furnished in the style of some period in the world's history. The paintings are regarded as worth \$250,000. It is said the house cost a million.

### Sells Loose Tobacco.

Attention of tobacco growers is called to the Grovers Tobacco Warehouse, of Lexington, which sells loose tobacco. If the tobacco is hauled in wagons it shows to better advantage; but if it is to be shipped we recommend that it be priced light, 700 to 800 pounds to the hoghead. We draw shipments from depot free. Free lodging for drivers and places for teams overnight is provided.

Our terms for sale are 2 per cent commission and 15 cents per hundred pounds and pay \$1.00 for empty hogheads.

### WOLFE COUNTY ITEMS.

J. P. Rose has bought the Allison Rose farm (old Swango farm) on Lacey's Creek for \$4,000.

The slender suit by Rosalin S. Duff against S. S. Combs for \$10,000 was decided in favor of Combs.

Roy Pieratt was fined \$50 for stabbing Carl Murphy.

J. T. Wilson, merchant of Campton, bought a farm near Richmond and will move as soon as he sells stock of goods.

Richard Wadkins plead guilty to cattle stealing and got two years.

It is now: Your Honor, Judge Jno. M. Rose, of the Hazelgreen Police Court. (We will be good, Judge, when we come to your town.—Ed.)

Born to Mrs. Clarence Trimble, of Hazel Green, a daughter.

### Pledges for 1907 Tobacco Crop.

The A. S. of E. has begun soliciting pledges for the 1907 crop of tobacco in Montgomery county. The Board of Control in the county has agreed that all signers for the 1906 crop shall redry and rebag their crop in their own barns until May, when a large warehouse will be secured and the crop delivered, graded and prized and put upon the market.

### Skain Nominated for Mayor of Lexington.

On Thursday the Democrats had a city primary in Lexington. The majority race was the chief attraction. The candidates were John Skain and J. T. Wilkerson. The vote was: Skain, 2,447; Wilkerson, 1,339; Skain's majority, 938. He carried 18 of the 23 precincts. Both had pledged to execute laws relative to selling whiskey, gambling, etc.

When we defy God and defy God we are facing the only "Yellow Peril."

### TOBACCO SALES.

At Lexington houses on Wednesday 50,000 pounds sold at 5 to 15c.

At Paris last week the Continental bought 125,000 pounds at 5 to 10c.

### Growing Wheat Safe, Say Millers at Meet.

At Lexington, Ky., on February 7, the Central Kentucky Millers' Association, the chief subjects of discussion being the wheat crop and the prices of flour. The general opinion was that the heavy snow makes the growing of wheat safe, that the present prospects are very good, and that the acreage is largely in excess of that of last year.

Big Valentine Party at Trimble's Rink Thursday night. Prizes given to the most attractive lady valentine and the most comic gentleman valentine.

District committeemen of the Republican party will hold a joint meeting at the Galt House, Louisville, Ky., Thursday noon. The object is to select time and manner of holding a State convention and to elect a successor to Secretary Walker of the State Campaign Committee. We are looking for some surprises. The candidates are J. A. Conyers, Glasgow; A. S. Bennett, Ohio county; J. L. Basha, Louisville. R. H. Winn and John C. Wood, of this city, are attending the meeting.

### Gives Thirty-two Millions to General Educational Board.

On February 6, John D. Rockefeller, Jr., speaking for his father, announced to the General Educational Board, New York, that by April 1, his father will give an additional \$32,000,000 in securities for educational work. His former gifts amounted to \$11,000,000. Many colleges in the United States will share the benefits.

### FINDS "FOUNTAIN OF YOUTH."

Man Who Discovered Old Tunnel Will Lay Out Park There.

William R. Hinsdale of Orange, N. J., who has discovered the location of the "old Spanish tunnel" in the Shawangunk mountains, is to lay out a park there, according to the New York World.

Tradition said that from the tunnel ran a stream of living water, and Prof. Mathel, state geologist of Ohio, who investigated, accepted the theory that the work was done by Spaniards who formed a part of the Ponce de Leon expedition. After failing to find the fountain of youth in Florida, and following their leader's dying injunction to continue the search, they are thought to have made the journey northward.

When they came to a stream larger than a man's arm rushing out of solid rock, with no visible source of supply, they halted and began to tunnel to locate the pool whence it came. This was in the sixteenth century. The tunnel was known till recently only by Indian legend.

Hinsdale, finding a stream that never varied in its flow or temperature, employed a force of men, and uncovered an accumulation of debris. Then he located the mouth of the tunnel itself. It is perfectly formed and the stream gushes from a fissure at the extreme end.

The tunnel is 500 feet long, six feet high, four feet wide and straight as an arrow, with only a rise of seven feet in its entire length.

Hinsdale purchased the entire tract of land, put in a narrow-gauge railroad, built an electric plant and lighted the tunnel with incandescent lamps.

A company is being organized to bottle the water, which, on account of its purity and historical associations, is expected to meet with ready sale.

### THOSE MANHATTAN CARS.

Henry Thomas, a well known merchant of Hampden county, tells this story of his first trip to New York:

"I had reached the city at night, and after asking numerous questions had reached the Astor house, where I was to stay.

"Next morning I went out on the street to take a car up town to attend to my business, but as the cars were merely named 'Broadway,' I could not tell which were going up and which down. Then, not caring to ask any questions, I boarded one of the empty cars, which I guessed was going up. After I had gone a few blocks I doubted my judgment, and so asked the conductor for which way we were going.

"Up town, of course; can't you see which end of the car the horses are on?" he answered, and, turning to the driver he remarked: "Now, but some people ask foolish questions."

### RUDYARD'S TROUSERS PRESSED

The latest snaphot at Richard Kipling at 40, taken by his wife, shows him in crossed trousers, which are interpreted to mean that he is taking better care of himself than he was when the memorable photograph was taken showing him flabby at the knees. It may be, however, that this is only a temporary expedient, resorted to by Mrs. Kipling to remove the popular impression as to her talented husband's shabby habits in the matter of grooming. Women indulge in this sort of artifice for their husbands' sake, occasionally. They have even been known to make him change his shirt more frequently than he wanted to.—Boston Herald.

### A THEOLOGICAL PROPOSITION.

Deacon Jones—Say, parson, if some pious chicken gets into your yard an' done scratch up yer garden, is it prop' to cut dat chicken's head off an' cook him?

Parson Brown—Well, dat 'pens on circumstances. Is dat dere chicken done been cooked?

Deacon Jones—Yes. We done got him fo' dinner today.

Parson Brown—Dat's berry good. I'll be ovan an' take de maffah undah digestion.—Toledo Blade.

Another wedding this week. Ask Mat Sampson.

Joe Fletcher sold his crop of tobacco to McCray at 10c straight.

James Douglass sold his crop of tobacco to McCray at 10c straight.

James Kendall sold a load of corn to B. G. Anderson and a load to H. W. Willoughby at \$3 in the field.

John Sampson and sons, John and Tom, moved to Lexington last week. Mat and Annie will go later.

D. Priest Henry had three dogs poisoned in his own yard the other night. He took a measure of the track.

At this writing (Saturday) Mrs. Tucker Henry is just alive. Her mother, Mrs. Sarah Crouch, is some better.

John G. Crouch and daughter, Mrs. Mary L. Neal, of Lexington, were called to the bedside of the former's mother and sister last week.

Having mailed our items for last week on groundhog day we were almost sure the sun wouldn't shine that day, but it did shine here for a few seconds, that's certain. So he came out, whistled, and went back, and as a result we are to have six weeks of rain, freshets, snow, cold, frozen and muddy weather. Consequently, when the liltle breath of winter drives him to his underground home for his long sleep he is not certain whether he'll see daylight again or not.

### Court of Appeals Decisions.

The F. W. Cook Brewing Co. vs. the Commonwealth of Kentucky. Filed January 25, 1907. (Not to be reported.) Appeal from Graves Circuit Court. Opinion of the court by Judge Nunn, affirming.

**Local Option—Sale of Beer—Delivery—Place of Sale.**—A contract made by a brewing company in its warehouse situated outside of local option territory to sell a purchaser a case of beer, to be delivered, and which was delivered to the purchaser in local option territory, was a violation of the local option law in force at the place of delivery.

# FRUIT JUICES KILL GERMS.

Lemons and Apples Fatal to Cholera and Typhoid Bacilli.

Among some "science notes" published by the Indian Mirror the following relate to the virtues of fruit. This is supplemental to the well-known effect of the juice of acid fruits, such as lemons, apples, pineapples, etc., in mitigating the craving for alcoholic drinks.

It is said that an eminent Japanese bacteriologist has recently shown with success that the acids of lemons, apples and some other fruits are capable of destroying all kinds and varieties of the germs which cause disease and pain in the human body. The acids, citric and malic, contained in the fruit juices probably have the effect of killing these disease germs.

Cholera germs are said to be killed in 15 minutes by lemon juice or apple juice and even typhoid germs, which have great resisting power, are killed in about 20 minutes by either of these acids, even if a very diluted form. A tumbler full of cold water saturated with cholera bacilli might be gulped down one's throat with impunity provided a lemon has been squeezed into it 15 or 20 minutes prior to the act. The safety here lies in the absolute certainty of the destruction of the bacilli by the action of the lemon juice. What is a delicious drink to the human being is here evidently a poison to these micro-organisms.

Thus the two most dreaded diseases in India—that is, Asiatic cholera and typhoid fever—have a simple remedy to checkmate their ravages. These prevalent and universal diseases have now this universal remedy. Lemons are within the reach of the poorest people in India and they could be secured for a very small price, even in the districts of great scarcity. Even the people by having a plentiful supply of lemons and oranges in the times of epidemics could take over the infection with great credit.

## ANOTHER TRIUMPH OF ART.

A young New York artist says that he was up in Vermont on a sketching trip during the past summer. One day while strolling along a pretty lake he overlooked a particularly picturesque little fellow who was sauntering along with a fishing pole on his shoulder and a string of small fish in his hand. He looked so much the part of the small country folk of poetry and fiction that the artist decided he would like to make a sketch of him, and after considerable negotiation, this was arranged, for the lad, in accordance with directions, perching himself on a rail fence.

As the artist worked away at his sketch an old countryman came down the lane and stood looking over his shoulder.

"B' gum! That certainly beats all I ever heard of," the old fellow presently exclaimed, admiringly.

"Like the picture, do you?" the artist asked, with a pleased flush.

"Oh, tant tant, though it ain't so bad. What I meant was you manage to keep that boy quiet so long."

## BY NO MEANS FINAL.

"Finally married? What nonsense! Why, this is only my first venture."

# Epilepsy Fits St. Vitus Dance

Are nerve diseases, and unless checked, lead to destruction of body mind and body. The weak, shattered nerves must have something to strengthen and build them back to health. Dr. Miles' Restorative Nervine is a remarkable nerve tonic and stimulant. It strengthens the nerves, relieves the nervous strain, and influences refreshing body-building sleep and rest. Persistent use seldom fails to relieve these afflictions.

"It was taken with epilepsy fits; had eleven in last year, 15 years. My father sent for my family physician, but he could do very little for me, and I grew worse every day, and at last they had three medicines with me, and I still got worse. My father heard of the Restorative Nervine and bought a bottle of Nervine and a box of Nerve and Liver Pills. I took them only a few doses until I began to feel better. I took 12 bottles. It cured me sound and well. It has been worth all the world to me. I recommend it wherever I go. You may use this as a life-long tonic to the nerves of your medicine for I am enjoying the best health I have had for many years and I feel that my life and health is due to this wonderful medicine." ## THIS CAT ATE CUCUMBERS.

Animal with Strange Tastes Has Been Living in Wells.

A cat that eats cucumbers and squashes has just been discovered in the town of Wells and so far as known there is not another like it in York county. The animal has been living on Elm farm, which is owned by Mrs. Vesta E. Hammond, and for some years the people living on the place have been troubled by some animal eating into the cucumbers and squashes and running a great many of them. Only the very outside of cucumbers were left and the squashes were faring about as badly.

It was a long time before it was discovered what was doing the work. The cucumbers and squashes were harvested and it was thought that they would be all right in the barn. One day Charles Graves, the hired man, went into the barn rather quickly and there found the cat eating away on a ripe cucumber and had already put one of the squashes out of business so far as its over being made into pies was concerned. Further operations along this line were then prevented by the disposition of the cat that preferred cucumbers without any vinegar salt and pepper to pure country milk without any water in it.

The cat is now in his last resting place as a reward for being a faithful mouse catcher. Bibbelford Journal.

## CAT'S EYES TELL THE TIME.

Secret Long Known to the Chinese Given to a French Traveler.

So long as there is a cat anywhere near it is not necessary to have a watch or a clock, for the animal's eyes will tell you the time of day. The first European to learn of the use of a cat as a time indicator was M. Huc, who, in a work on the Chinese empire, tells how he was initiated into the mystery.

M. Huc and a party of friends set out to visit a Chinese Christian mission settlement among the peasantry. They met a young Chinaman on the road and to test his intelligence they asked him if he could tell them the time. The native looked up at the sky, but the clouds hid the sun from view and he couldn't read any answer there. Suddenly he darted away to a farm and returned in a few moments with a cat in his arms. Pushing up its eyelids with his hand he told Huc to look at them, at the same time volunteering the information that it was not noon yet. While they were puzzling over the case the boy went about his business.

When the party reached the village they asked the Christian converts if they could tell the time by a cat's eyes and how it was done. Immediately there was a wild hunt and all the cats obtainable in the neighborhood were brought before them.

The Chinese pointed out that the pupils of a cat's eyes were gradually narrower up to 12 noon, when they became scarcely perceptible lines, drawn perpendicularly across the eye and after that dilation recommenced. Huc examined the eyes of several cats and verified what the Chinese had told him.

## CORAL REEFS ON MOON.

The Bed of Lunar Ocean. According to Astronomers.

The strangeness of the scenery of the moon and the enormous size of its cratered-shafts mountains have led some astronomers to think that its past history must have been quite different from that of the earth. This, however, is not the opinion of the French scientists, Loevy and Puisseux, who, in a recent communication to the Academy of Sciences, say that a study of the latest lunar photographs tends to show that the condition of the moon's surface has been produced by the action of the same natural forces now at work on the earth.

Every one who has seen a chart of the moon as drawn by astronomers knows of the curious, irregular, ragged rings that have been called "moon craters" for many years.

Now astronomers have raised the question whether or not they are really the craters of extinct volcanoes, as has been supposed for so long. One of the scientists asks,

"How would the ocean bottoms of the earth appear to a man in the moon if all our seas were to disappear?"

"Exactly the same as the moon craters look to us," is the answer.

Consequently certain astronomers are now engaged in attempts to prove that the moon's curious surface is not all volcanic and that the "craters" are nothing more or less than coral reefs and the remains of other coral-like structures that have been left high and dry by the evaporation of lunar oceans.

## SORRY HE KEPT A QUARTER.

Lieut. Gov. William M. Brown, of Newcastle, Pa., who is interested in the Syracuse & South Bay railroad and spends considerable time in Syracuse, N. Y., recently received a "conscience fund" of 40 cents from Harry A. Toms, of 25 Kearns street, Pittsburgh. In his letter Mr. Toms says:

"Twenty years ago, while employed in your law office, you sent me to Clinton with a mule and I charged you 25 cents more than I should have. I have since given my heart to the Lord Jesus Christ. Inclosed please find 19 cents, 15 cents of which is interest."

"Oh, well, I don't want to break you," replied the forger, "there's a quarter for seed."—Lanston Post.

# Straight Talks on Patent Medicines.

The "Rexall" Remedies deserve confidence.

As all these remedies are grouped under one name, they must succeed or fail together. There must be no weak links in this chain. One unworthy remedy would mean disaster to the entire plan. If you, for example, purchased the "Rexall" Cough Cure and were not cured by it, how could we expect you to place any faith thereafter in the "Rexall" Dyspepsia Cure or any other member of the "Rexall" family?

You can understand, therefore, why such anxious care was given to finding and choosing the remedies to which the name "Rexall" was given. We have admitted none to this circle until our committee of experts had been convinced by investigation and test that it was the best remedy known to medical science for the ailment it aimed to relieve.

Who should know better than the leading thousand druggists of this country what are, and what are not, efficient medicine?

Remember, the success of our enterprise depends on the merit of each individual remedy. Our reputation, which is our very business existence is at stake. Can you doubt, that in buying a "Rexall" Remedy, you are buying the best science and experience can give you?

Here are three prominent members of the "Rexall" family:

## REXALL "B" HAIR TONIC

The famous Rexall "B" Hair Tonic is composed in chief of Resorcin, Beta Naphthol and Pilocarpin.

Resorcin is one of the latest and most effective germicides discovered by a science, and in connection with Beta Naphthol, which is both germicidal and antiseptic, a combination is formed which not only destroys the germs which rob the hair of its brilliancy, but gives it a clean and healthy condition of the scalp, which prevents the lodgment and development of new germs.

Pilocarpin is a well-known agent for restoring the hair to its natural color, where the loss of color has been due to a disease of the scalp. It is not a coloring matter or dye—it produces its effect by stimulating the scalp and hair follicles to health and active life.

This combination of curatives mixed with a soothing and stimulating perfume, for hair and scalp, truly makes a food for the hair and scalp.

Per Bottle, 25c.

## REXALL DYSPEPSIA TABLETS

The remarkable success of Rexall Dyspepsia Tablets is largely due to the new and successful method of manufacture, whereby the well known properties of Bismuth Subsalicylate and Pepsin have been combined with carminatives and other agents.

Bismuth Subsalicylate and Pepsin are recognized by the entire medical profession as specifics for acute indigestion or chronic dyspepsia.

The Pepsin used is manufactured under a new process which develops its greatest efficiency. Pepsin not only supplies to the digestive machinery one of the most important elements of the digestive fluid, but seems to exert a tonic influence upon the glands which supply all the gastric juices.

The carminative and proprietary ingredients promptly relieve the most distressing and painful conditions of the stomach.

The combination of the whole makes a remedy, known as "Rexall Dyspepsia Tablets," which is usually taken after meals to perform the digestive functions. Package, 25c.

## CHERRY JUICE COUGH SYRUP

A new idea in Cough Syrup. This preparation owes its efficiency to the presence of Wild Cherry, Violets, Squills, Bismuth, Horehound and Syrup.

All of these have been known for a hundred years as remedies for coughs and hoarseness.

In Rexall Cherry Juice Cough Syrup, all of these remedies have been combined by a process of manufacture that has blended them into a perfect medicinal harmony whereby the characteristics of each support and reinforce the others.

The pathological properties of each ingredient does its own particular work in easing the inflamed membranes, loosening the phlegm and setting up a condition of health in the bronchial and nasal passages.

One spoonful will relieve the inflamed membranes and temporarily stop the cough. One bottle will work a cure. It is exceedingly pleasant to the taste—children like it. Per Bottle, 25c.

Look for this Rexall Guarantee on each package: "This preparation is guaranteed to give satisfaction. If it does not, come back and get your money. It belongs to you, and we want you to have it."

### Knocked Out by the Court of Appeals.

The Court of Appeals affirmed the judgment of the Trimble Circuit Court in the case of the International Harvester Company of America vs. the Commonwealth.

The indictment, charged the defendant company with having entered a combination for the purpose of fixing the price of manufactured articles prohibited by the Statute. The company was convicted and fined \$2,000 under the evidence presented. The court here says that "It is plain there was no opportunity for competition between the owners and agents of the various makes of machines sold in the territory of the case."

"The contract with these sales agents confine them to certain territory and stipulate that if they sell outside of this territory their commission shall be paid to the agent in that territory."

## Riding Astride.

The Grant County News says: It is with pleasure that we note that our young ladies are adopting the sensible mode of horseback riding, that is, astride.

Here in Kentucky we are slow to adopt new ideas and new fashions, but when a fashion is introduced which is so much more sensible than the old way, and which eliminates a great deal of danger which the old way entailed, we should not be slow to adopt it.

## IN L of COCAINISTS.

In spite of low price receipts from all points still continue heavy. There are arrivals daily on the regular traders from Porto Rico and Trinidad, to say nothing of large arrivals at our ports from West Indian ports.

Prices at present are \$20 per thousand, or 2 cents each by wholesale.

## Influence of Baptists on Colonial Days.

A matter of great pride to the Baptists is the influence that the simple, democratic tenets of their faith is believed to have had upon the Constitution of the United States. Thomas Jefferson went often to the Baptist meeting house near Monticello. Dolly Madison is quoted as having heard Jefferson assert that he considered the Baptist method of church government to be the most exemplary form of true democracy in existence.

It is said that Virginia's adoption of the Constitution was due to the action of the Rev. John Leland, a Baptist minister. At first the Rev. Mr. Leland was an ardent anti-Federalist, but later he became convinced of the falsity of his position, withdrew from the contest and threw his influence toward his Federalist opponent, James Madison, who cast the deciding vote for Virginia.

Later, the same Mr. Leland representing the United Baptist Churches of Virginia, called the attention of the country to the fact that the religious rights of the people were not protected by the Constitution. Washington took immediate action, and through James Madison an amendment was offered in the House of Representatives.

## Can Either Be Induced?

At present only three names are being widely discussed as possible Republican nominees for Governor: Chief Justice Ed C. O'Rear, of Mt. Sterling; former Chief Justice A. R. Burnam, of Richmond; Geo. W. Welsh, of Danville. None of these three gentlemen is in any way a candidate for the nomination, but all three have friends who think they should make the race.

## Man Who Gave Five Millions to Charity Dead.

John A. Creighton, aged seventy-five, died at Omaha, Neb., on February 6. He was created a Count by Pope Leo XIII for great benefactions. He gave five million dollars for charity and educational purposes.

## Fined For Selling Beer.

W. R. Davidson, formerly of Upper Blue Licks, was tried for selling beer without a license at Carlsberg. He was fined \$75. Mr. Davidson said that he preferred to go to jail rather than pay the fine.

## Flue Curing Develops the Stimulating Aroma and Taste Found in Schnapps that Satisfies Tobacco Hunger

Schnapps is like the tobacco chewers formerly bought costing from 75c. to \$1.00 per pound; Schnapps is sold at 50c. per pound in 5c. cuts, strictly 10 and 15 cent plugs.

# FLUE CURING IMPROVES TOBACCO LIKE ROASTING IMPROVES GREEN COFFEE

Flue Curing Develops the Stimulating Aroma and Taste Found in Schnapps that Satisfies Tobacco Hunger

There are three ways used by farmers for curing and preparing their tobacco for the market; namely, sun cured, air cured and flue cured. The old and cheap way is called air cured; the later discovery and improved way is called flue cured. In flue-curing the tobacco is taken from the field and suspended over intensely hot flues in houses especially built to retain the heat, and there kept in the proper temperature until this curing process develops in the tobacco the stimulating taste and fragrant aroma found in Schnapps tobacco, just as green coffee is made fragrant and stimulating by the roasting process. Only choice selections of this ripe, juicy flue cured leaf, grown in the famous Piedmont country, where the best tobacco grows, are used in Schnapps and other Reynolds' brands of high grade, flue cured tobaccos.

Hundreds of imitation brands are on sale that look like Schnapps; the outside of the imitation plugs of tobacco is flue cured, but the inside is filled with cheap, flimsy, heavily sweetened air cured tobacco; one chew of Schnapps will satisfy tobacco hunger longer than two chews of such tobacco.

Expert tests prove that this flue cured tobacco, grown in the famous Piedmont region, requires and takes less sweetening than any other kind, and has a wholesome, stimulating, satisfying effect on chewers. If the kind of tobacco you are chewing don't satisfy, more than the mere habit of expectorating, stop fooling yourself and chew Schnapps tobacco.

Schnapps is like the tobacco chewers formerly bought costing from 75c to \$1.00 per pound; Schnapps is sold at 50c. per pound in 5c. cuts, strictly 10 and 15 cent plugs.

## Killed in the Week.

When the boiler of engine on C. & O. exploded in Fayette last week four men were killed. Geo. W. Hrrp, engineer, Lexington; Claude Marshall, fireman, Lexington; Fred Runyon, fireman, Olive Hill, had been to Lexington and was going home; C. W. Berry, brakeman, Ashland, was blown to pieces. The train was pulled by two engines. The front engine blew up, because water was in some way cut off from boiler. The front boiler was blown to fragments.

## Car Inspector Killed at Paris.

J. D. Anderson, car inspector of the Louisville & Nashville railroad, was instantly killed in Paris Wednesday in full view of the passengers who were about to board a train. Mr. Anderson was to inspect the outgoing train for Mayville. While engaged in making the pipe connections a freight train which follows the passenger backed into the passenger with unusual force, knocking Anderson down and shoving the front trucks of the baggage car over his body.

## Get Right.

He had a scowl on his countenance, his words were chosen from disappointment's choice vocabulary and the world was going all wrong with him; that's not it—the world had gone wrong with him. Have we any such? Yes, the disappointed are here and they are kicking. Do they bring things to pass? Look about you and answer for yourself. It is the man that thinks much, talks little, just keeps on pegging. It is persistency and judgment that make the eminent professor, the man, the world.

## MAKE MILLIONS IN RUGS.

Americans Control Many of the Big Factories in India.

In 1905-6 there were manufactured in India and exported carpets and rugs to the value of \$1,900,000, of which \$1,500,000 in value went to the United Kingdom and \$400,000 in value to the United States. Most of the finest rugs that were shipped to the United States of Indian manufacture were made in factories controlled by American capital. One firm alone controls ten factories, one each in Kashmir, Hyderabad and Sikkim, the others being scattered over two-thirds of India. This firm employs 15,000 people, half of whom are females engaged in spinning and the other half on the hand looms.

Practically all of the rugs made by this firm are manufactured on designs that were worked out in the United States, and are intended to meet the American demand. The colors used are indigenous, purely vegetable, and are prepared upon formulas that have been handed down for centuries from father to son. This firm would be glad to do their manufacturing in the United States, but it has been found to be impossible to induce any considerable number of expert rugmakers to emigrate to the United States, even if there were no legal difficulties in the way, and it is impossible to induce Americans to engage in making rugs by hand, as they are made in India, so that it should be a matter of genuine pride to Americans to know that their countrymen are leading in the enterprise of rugmaking in India and are the first to enter the domain of Thibet to engage in manufacturing.

## OUR 'INDIAN ACCENT.'

Every little while some English writer appears with the theory that the physique of Americans is becoming assimilated to that of the aborigines. It is a philologist, End Campbell Dawson, who now uses this theory to account for the peculiarities of American speech as "due to a particular formation of the palate, peculiar originally to the American Indians, but now shared by the invaders." That this is nonsense appears from the fact that Englishmen speak with an English accent. There can be no question as to the marked divergence of English and American speech, particularly in the matter of intonation. American speech is much more monotonous and less spontaneous, the regular fall of the voice at the close of sentences being perhaps hoarse rather than conversational. The cultivated, is apt to be simple, even and logical, like a page of print, while English speech is much more varied and expressive in its cadences. —Springfield Republican.

## COULDN'T NAME CAPITALS.

"While this is an age of intellectuality and brains and all that sort of stuff," said a young business man the other day, "you've no idea of the absolute lack of knowledge of little things that most of us have. For instance, recently I was in conversation with a friend and, although we were talking upon some absolutely irrelevant subject, I was startled by suddenly having him ask me: 'What is the capital of Florida?' 'Tallahassee,' I answered, and he thereupon began to ask me the names of capitals of state after state. I answered correctly 50 or more until we came to Texas. Think as I would I could not remember the capital of Texas. When he saw he had me cornered my friend told me one of the theory he had that only one man out of every ten had more than a superficial knowledge of these little things. According to him I was the eighth man he had tackled and not one of them could tell without a guess the capitals of all of the states in the union." —Philadelphia Record.

# The L. of Coughing

Hammer blows, steadily applied, break the hardest rock. Coughing, day after day, jars and tears the throat and lungs until the healthy tissues give way. Ayer's Cherry Pectoral stops the coughing, and heals the torn membranes.

"I always keep Ayer's Cherry Pectoral in the house. It gives perfect relief whenever any of us have coughs or hard colds. I have used it for a great many years and can honestly say it is the best medicine I have ever known."—MRS. MARY OGDEN, (Vermont, N. Y.)

Bills, coughs, constipation, retard recovery. Cure those with Ayer's Pills.

## WASHINGTON'S BIRTHDAY.

(By Margaret Sangster.)  
To be proud to live as grand,  
That long after you are gone,  
The things you did are remembered,  
And recounted under the stars;  
To live so bravely and purely,  
That a nation stops on its way,  
And men a year, with banner and drum,  
Keep its thought of your natal day.

To spend to have a reward  
So white and free from stain,  
That, held to the light, it shows no tale,  
Though tested and tried again,  
That age to age forever  
Repeats its story of love,  
And your birthday lives in a nation's heart  
A better day above.

And this is Washington's glory,  
A standard and a true,  
Who stood for his country's honor  
When his country's days were new,  
And now, when its days are many,  
And its flag of stars is flying,  
To the brave in defiant challenge,  
His name is on every tongue.

Two it's splendid to live so bravely,  
To be so great and strong,  
That your memory is ever a lesson  
To rally the best of the wrong;  
To live so purely and purely,  
That your people pause in their way,  
And year by year, with banner and drum,  
Keep the thought of your natal day.

## Request of Post Masters and Subscribers

Last week we received a card from a Post Master in Powell county saying that papers for two of our subscribers are left in post office and that the address of these two is changed. We do not know where to find these men. If the Post Master knew and had said their new address is....., naming the post office, he would have favored us and given us an opportunity to write them. He wrote that another had "refused" his paper. Strange it is that an honest man will subscribe for a paper, get it for a year or two without paying for it, and will then have the Post Master write "Refused." Each of these three owes for the paper. Wishing to change location or to discontinue the paper they should have notified U.S. not the Post Master, in words something like these:

..... Powell Co., Ky., Feb. 7, 1907.  
DEAR SIR: I see from tag on my paper that I owe for two papers and nine months. Circumstances are such that I do not care longer to take the Advocate. Enclosed is check in full to date. You will please discontinue the paper.  
Respectfully,

DEAR SIR: For ten years I have read your paper. Next week I am to go to my new home at..... I see that I owe you for two years and seven months. Not wishing to locate elsewhere while I owe for the paper (because my new neighbors who drop in to see us would pick up the paper and notice that I owe for it and would thus form a bad opinion of us) I herein enclose a money order to pay for four years. This pays in advance, but that is to show my appreciation of your kindness. Please see that the date on tag is changed before first copy comes to me at..... I regret that I have overlooked this matter.  
Very respectfully,

Then we could have said: That is business, courtesy, honesty. These men are thoughtful and considerate. They will not be disturbed in their sleep at night by the thought that they had tried to evade payment of a just debt, or that it was unkind in them to thus treat an editor who knows they told him to send me the paper until they asked that it be discontinued.

Editors find out some strange things.

## Going.

The last five and one-half months of the year past 26 counties have been added to the dry list, making a total of 95 dry counties out of 119, leaving a balance of 24 counties to be worked on, the greater number of which would go dry under the County Unit Law.

The report that went out from here to the daily papers to the effect that brakemen of the C. & O. had resigned on account of overwork, etc., is without foundation.

## GIVING TIPS IN JAPAN.

There the Innkeeper is Not Forgotten When Guest Goes Away.

"If you hotelkeepers should ever be told of the Japanese method of tipping, why we would all have to take to the woods," said a far-eastern traveler, in the New Orleans Picayune. "In a Japanese hotel you give the proprietor the biggest tip of all when leaving, and grade the other tips accordingly."

"When your bill is handed to you it is customary to wrap up in a separate piece of paper an amount approximating about one-fifth of the whole amount, and give that to the worthy innkeeper, together with the regular amount required of you by his account, which you indorse in the added bill. Then you wrap up smaller sums in smaller pieces of paper, and parcel these Christmas packages out among the servants who have waited on you."

"The tip to the hostess is called chokai, or tea money, and the Japanese explain its usage after this manner of reasoning:

"All hotel charges in Japan are forced to be very low, so that even the very poor man who finds himself on the road at night can get food and shelter for a nominal sum. The rich man has to pay no more than the beggar."

"Since the hotel man could not make a living if this order of things were allowed to exist, without some saving grace, some recompense must be made to the hotel keeper for his enforced generosity. Therefore, it is argued, if a guest can well afford to give the host something more than he asks, he not only provides for those less fortunate than himself, but he lends himself against the evil day when he may have to ask a beggar's board and bed. It is not charity to the innkeeper, but merely a wise provision against possible hard times."

"For if a man whom the worthy host believes to be able to afford a generous chokai leaves the hotel without paying the same, we betide him should he ever return to that hostelry again. He will get lost chance at the communal bathhouse, will get the most drafty room in the house, and in a hundred ways be made to feel that he is the most miserable of men."

## SHE ADVISED THE GOVERNOR.

Gov. Stokes, the bachelor executive of New Jersey, was about to pass into the Mechanics' bank, of which he is president, when a pretty little girl, playing on the steps, arrested his interest. Stopping he asked her name.

"I'm Catherine Johnson, eight years old," she replied. Then, turning to the governor, she inquired: "What is your name?" "Mr. Stokes." "Do I know your little girls?" "No, I guess not; I have none." "No babies—never had any? Babies are so cute, you ought to have one."

At the governor's walled laughter he went into the bank the child said: "When you get some around your house I'll come and play with them every day. Don't forget to let me know." The governor was not certain whether the matter was a joke or not, but a friend at the bank entrance settled the question by laughing loudly and telling the other bank officials—Philadelphia Record.

## SAFE THING TO GIVE.

Bacon—The worst thing a man can give a friend is money, and the best thing he can give is advice. Egbert—I don't see how you can make that out.

"Because if he gives advice his friends don't come back for more of the same."

## BETTERED MYSELF.

Nell—The last time I saw Miss Kutely she had a job as collector, running down old accounts for a wealthy manufacturer.

Belle—She got a better job now running up new accounts at all the stores. She married her employer.

## HAPPY IMMUNITY.

"There's one advantage in being color blind, anyhow," said one marked by this visual peculiarity.

"What's that?"

"Why, all I know of the red necktie is based on hearsay."

## THE ONLY WAY.

Lawson—What do you do when your little boy asks you questions that you can't answer?

Dawson—Send him to bed and get out the encyclopedia.

## ASKS PAY FOR GIFTS.

Unpleasant Sequel to a Christmas Courtesy.

That a neighborly exchange of Christmas gifts may result in the development of a most anti-Christmas spirit was abundantly demonstrated the other day when a certain overhanger of the city, who is likewise a dealer in fancy gas and electrical fixtures, repaired to the emporium of a neighbor that the neighbor owed him a bill, which he had laid in vain to collect, and for aid in the collection of which he appealed to the employer. The bill was for about \$10, including a "job" of papering and a fancy gas globe.

"Is it true that you owe this money and refuse to pay it?" asked the employer severely.

"I'll tell you how it is," answered the man. "This fellow and I who are neighbors, exchanged Christmas gifts last Christmas. He gave me this globe, and I treated his family. Some time after that I had him to do a job of papering for me. Instead of putting glue in the paste with which he stuck the paper on the wall he put molasses. The paper stuck for awhile and then began breaking loose. I had not yet paid him, and when I asked him to fix the paper and refused to pay him till he did, he got sore and, besides charging me for the papering, charged me for the Christmas present, and sent the bill to you."

"This is a sweet mess, especially that wall-papering proposition," commented the employer. After a little discussion the man decided to pay the bill rather than have anything more to do with his recalcitrant neighbor.—Indianapolis Star.

### Pleasures at the Rink.

N. H. Trimble has spared neither time nor money in providing suitable quarters, and entertainment and comfort at the rink. Lovers of music can hear the Mitchell family each afternoon and evening during a season of six weeks.

Prof. Albert Waltz, a celebrated expert skater, was at the rink on Friday and Saturday afternoons and evening. He was obtained at big expense, but Mr. Trimble wishes to give his patrons the best. Wonderful was the skill of Prof. Waltz on regular skates, stilt skates, on two wheels or one wheel. We presume the like was never seen in our city.

Mr. Trimble deserves and is receiving a large patronage. Spend an afternoon or evening there and forget your cares.

## DEATHS.

McMAHILL.—Judge S. McMahon, formerly of Carlisle, died in Chicago on Tuesday of last week. Burial in Carlisle on Thursday.

WILLIAMS.—Mrs. John L. Williams died at her home in Clark county on last Sunday from dropsy. She leaves two babes aged five weeks. Mrs. Williams was a daughter of W. H. Nelson, of Clark county, and was a most excellent woman. Funeral services were held at her late home and burial was in Macphelah Cemetery on Tuesday.

LESLIE.—Ex-Gov. Leslie, of Kentucky, is dead in Montana. He was born March 8, 1819. Was called to Legislature in 1844 and '50, and was Senator from '51 to '55, and from '67 to '71. In '71 he was elected Governor over Jno. W. Harlan by a majority of 37,000. In '87 he was appointed Territorial Governor of Montana by President Cleveland.

ELLIOTT.—Prof. Milton Elliott, President of the K. C. and B. College at North Middletown, died at his home on Tuesday morning, February 5, 1907, after a long sickness. For many years he has been a prominent educator, being in charge of Colleges at Kirksville, Mayfield and North Middletown, Ky. He has also preached for many congregations. For two years he was pastor of the Christian Church at Cane Ridge, Bourbon county. He was an ardent temperance advocate. As an educator, preacher and christian citizen he will be greatly missed in Kentucky. The funeral service was held at Broadway Christian Church in Lexington by Revs. L. H. Reynolds and J. W. McGarvey, Sr., life-long friends. He was buried in Lexington. A son, Prof. N. H. Elliott, is principal of the Graded School at Sharpsburg.

### Damage by Fire.

Early Thursday morning fire was discovered in the residence of Mrs. Lillie Burton, on High street. The origin of the fire was from natural gas in a flue. The furniture in the house was practically destroyed, either by fire or water, but the exterior of the building was held in tact.

Mrs. Burton carried insurance. On residence, \$2,100; on furniture, \$500. She was preparing to move to Millersburg and had much of her household goods packed. In addition to the regret that often comes with a change of residence, there is in this case the sorrow occasioned by having the furnishings and priceless tokens of the home practically ruined if not destroyed.

## Judge Carroll Before The Court Of Appeals.

Judge Carroll, of New Castle, Ky., made one of the most eloquent appeals to that court in behalf of the Cammick Unit Bill that we have ever heard. In part he said: "The police power is an inalienable right that inheres in any democracy. It is the right of citizens to protect themselves against any evil, and can not be taken away, even by constitutional decrees. The people of Kentucky have the right to protect themselves from the liquor traffic in any manner they may elect. Under the constitution if they choose, but without any constitution if they see fit."

Then said he, "Gentlemen of this court, you are well acquainted with the history of Kentucky, and the struggle of her people. You know how we have suffered from the traffic in intoxicating liquors, and how for years we have struggled to get a measure through the Legislature that would enable us to throw off this yoke of slavery. The people of this Commonwealth are now looking to you for protection, and trusting that in some way you will be able to uphold this bill in the realm of law and help us to save our state, and our homes."

It was a most eloquent and pathetic plea which ought to reach the hills and dales of our Commonwealth.

## Warfare Waged With Dread White Plague.

Organized effort is now being made throughout the United States to fight consumption. Spitting in public places is deprecated, as the disease is frequently contracted from dried sputum. Colds should not be neglected, as they leave the lungs in a peculiarly receptive condition for the tubercular germ.

## Challenge From W. S. Lloyd.

W. S. Lloyd, is seeking the worst case of dyspepsia or constipation in Mt. Sterling, Ky., or vicinity to test Dr. Howard's new specific for the cure of those diseases.

No confident is he that this remarkable medicine will effect a lasting cure in a short time, that he offers to refund the money should it not be successful.

In order to secure the quickest possible introduction W. S. Lloyd will sell a regular fifty cent package of this medicine at half price, 25 cents.

This specific of Dr. Howard's will cure sick headache, dizzy feelings, constipation, dyspepsia, and all forms of malaria and liver trouble. It does not simply give relief for a time; it makes permanent and complete cures.

It will regulate the bowels, tone up the whole intestinal tract, give you an appetite, make food taste good and digest well, and increase vigor. Joy and happiness will take the place of that "don't care whether I live or die" feeling.

28-31-34.

## Another Physician Testifies.

Dr. McCormick, a physician and eminent scientist when lecturing before both houses of the Alabama legislature, said: "I do not believe whiskey is a good medicine. Where one life is saved by it one thousand lives are lost by it." At this he was cheered to the echo. That applause coming from the men it did was very significant. Yes, the doctors of the land are changing their views very rapidly on this subject.

There are at least fifty congressmen from fourteen Southern States in Congress who are pledged to and will vote for the Cammick bill, to protect local option territory from the shipment of liquor from other states.

Any skin itching is a tempter. The more you scratch the worse it bites. Don't Ointment cures itches, eczema—any skin itching. At all drug stores. 30-41

## MARK TWAIN ADMITS IT.

Says It Was Not Right to Give Cat "Pain-Killer."

It was not right to give the cat the "Pain-Killer." I realize it now. I would not repeat it in those days. But in those "Tom Sawyer" days it was a great and sincere satisfaction to me to see Peter perform under the influence—and if actions do speak as loud as words, he took as much interest in it as I did. It was a most detestable medicine, Perry Davis' Pain-Killer. Mr. Pavey's negro man, who was a person of good judgment and considerable curiosity, wanted to sample it, and I let him. It was his opinion that it was made of hell-fire.

Those were the cholera days of '49. The people along the Mississippi were paralyzed with fright. Those who could run away, did it. And many died of fright in the night. Fright killed three persons where the cholera killed one. Those who couldn't flee kept themselves drenched with cholera preventives, and my mother chose Perry Davis' Pain-Killer for me. She was not distressed about herself. She avoided that kind of preventive. But she made me promise to take a spoonful of Pain-Killer every day. Originally it was my intention to keep the promise, but at that time I didn't know as much about Pain-Killer as I knew after my first experiment with it. She didn't watch Henry's bottle—she could trust Henry. But she marked my bottle with a pencil, on the label, every day, and examined it to see if the teaspoonful had been removed. The fear was not corrected. It had cracks in it, and I fed the Pain-Killer to the cracks with very good results—no cholera occurred down below.—North American Review.

## AMUSING OLD SIGNS.

In some old plates by Hogarth a coolshop is advertised by a head of John the Baptist, and in another plate the barber's sign is not only a colored pole, but also a hand drawing a tooth from a patient's head, who, judging by the expression of his face, seems to be suffering exquisite pain. Beneath this grimacing visage is the inscription, "Shaving, bleeding and teeth drawn with a touch."

A sign common to oil shops was "The good woman," viz., a female without a head. The cynical meaning here is plain.

Nowadays along the coast, oyster or fishing vessels which wish to make known the fact that they are selling their hauls hoist a broom to the masthead. This sign is known to all watermen.

An amusing sign was that of the "Three Loggerheads," that is, two grotesque wooden heads with the legend, "Here we loggerheads three," the reader making the third.—The Sunday Magazine.

## DISTURBING QUESTION.

"What's the most frequent cause of divorce?" the lawyer was asked. "It is nearly incredible," he said, "but a thing that causes divorce oftener than you'd imagine is married people's quarreling over their rights to open one another's letters. 'The husband will claim that he is entitled to open the wife's mail. The wife will claim that she is entitled to open the husband's. In the letters of neither will there be anything of a private or compromising nature; but nevertheless they both want to get their mail involuntarily entangled then to have it opened and read."

## SNOW SHOVELING NEXT.

Citizen—How are things with you? Boss? Suburban—No, but I'll bet we're due to have a heavy fall of snow pretty soon.

Citizen—What do you mean? I don't understand— Suburban—Well, I stopped cutting grass nearly two weeks ago.—Philadelphia Press.

## TWO GROWLERS.

"I don't like the way that dog of your growls at me," remarked the young man who was calling. "O, that's nothing," replied the girl; "just wait till you hear papa!"

## COMFORTING WORDS.

Many a Mt. Sterling Household Will Find Them So.

To have the pains and aches of a bad back removed; to be entirely free from annoying, dangerous urinary disorders is enough to make any kidney sufferer grateful. To let how this great change can be brought about will prove comforting words to hundreds of Mt. Sterling readers.

Mollie A. Power, of Main street, Richmond, Ky., the well-known ladies' tailor, says: "For seven years I suffered almost continuously from kidney troubles, all the symptoms usual to such cases manifesting themselves. I was unable to find anything in the large number of remedies which I tried that seemed at all likely to do me any good, and one by one I gave them up. Finally I heard of Don's Kidney Pills in a way that made me believe they must be good. I got a box. They helped me from the first and I take keen pleasure in this opportunity to state my belief in Don's Kidney Pills."

## Get Coal From Australia.

At San Francisco, Cal., several large cargoes of Australian coal are being discharged for the Harriman railroads. At the docks in Australia the coal cost \$10 per ton and it is estimated that by the time it is discharged here the cost totals up to \$16 per ton. The shortage of freight cars and locomotives on the Harriman, however, is such that the railroads save money by getting Australian coal, instead of taking cars and engines from general traffic and using them to haul domestic coal.

## Man.

What is a man? Is it just bone, skin, flesh, cheek, a conglomerated mass of stuff, or is it principles that make the structure? The one is the cigarette fiend, the infuser of strong drink, he who cusses, and the like, while the other is he who loves God, honors father and mother, making life worth living. What are you?

Truth grinds us with power while error grapples us with poison.

The true purpose of discussion is not to rout an opponent but to reach the truth.

## Do You Want to Know

### What You Swallow?

There is a growing sentiment in this country in favor of natural or "sugar" cures. It is not natural that one should have sugar in the composition of that which he or she is expected to swallow, whether it be food, drink or medicine.

Recognizing this growing disposition on the part of the public, and satisfied that the fullest publicity can only do the well-earned reputation of his medicines, Dr. R. V. Pierce, of Buffalo, N. Y., has taken time by the forelock, and is now publishing a list of all the ingredients entering into his leading medicines, the "Golden Medical Discovery," the popular liver invigorator, stomach tonic, blood purifier and heart regulator; also of his "Favorite Prescription" for weak, overworked, brooding, nervous and invalid women.

This bold and outspoken movement on the part of Dr. Pierce, has by showing exactly what his well-known medicines are composed of, completely and unsharply refuted the charge of adulteration which has been so often made. A little fact which has been compiled from the standard medical authorities of all the several schools of practice, showing the strongest endorsements by leading medical writers of the several ingredients which enter into Dr. Pierce's medicines. A copy of this little book is mailed free to any one desiring to learn more concerning the valuable, active, medicinal ingredients which enter into the composition of Dr. Pierce's medicines. Address Dr. Pierce as above.

Dr. Pierce's Pleasant Pills are tiny, sugar-coated antibilious granules. They regulate and invigorate Stomach, Liver and Bowels. Do not hurt the "liver" but give a healthy, medicinal action to the digestive system. One or two such pills for a laxative and regulation movement of the bowels. These pills always in favor. \$50.00 GIVEN AWAY, in copies of "The People's Common Sense Medical Adviser," a book that sold to the tune of 30,000 copies a few years ago, at \$1.50 per copy. Each year we give away 50,000 worth of these invaluable books. This year we will give away 50,000 worth of them. Will you care in this benefit? If so, send only 25 three-cent stamps to cover cost of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

## HAS A SINGULAR LIGEL LAW.

Australia Protects Its Citizens Who Have Small Pride of Ancestry.

The libel law of Australia is the queerest in the world. He who is sued for libel there must not only prove that the accusations he published were true but also that to publish them was for the public benefit. Elsewhere the truth of the accusation alone needs to be proved.

An Australian sheepraiser explained this queer libel law at a wool sale.

"Australia was practically colonized by convicts," he said. "There is no use denying this. The colonizers of Australia were convicts in the main."

"The descendants of these convicts are now Australia's leading families, the richest, the most influential, the most intelligent, the most respected. And yet these excellent people were in the past at the mercy of every editor. Let them get into the smallest squabble or dispute with some editor and the man would bring them into general ridicule and contempt by printing their ancestry, by showing that Sir John Smith's great-grandfather had been sent out robbing an old woman of seven dollars or that Judge Brown's great-uncle, while employed as a servant girl, had tried to poison her master's son, with whom she was in love."

"It is undeniably true that the best Australians have convict blood in their veins. The newspapers that they quarreled with used to taunt them with their convict blood. Hence the present queer libel law, which protects them, for, of course, it can never be for the public good to publish that the grandmother of Judge So-and-so or the great-uncle of Dr. Blank was a convict."

## CHECKMATE IN THREE MOVES.

A tramp, forlorn and ragged, but unmistakably a professional beggar, came at the Chinese legation in Washington.

"Please, mister," he said to the butler who came to the door, "if you would give me some money, I haven't eaten anything in a week."

"The minister does not believe in giving money to beggars," said the butler.

"Then gimme something to eat."

"I'm hungry."

"The butler looked the tramp over."

"It is against our rules," he said.

"The tramp was persistent. 'Well, anyhow,' he said, 'do something for me. Can't you gimme an old pair of the gentlemen's pants?'"

"Don't wear 'em," said the butler, and closed the door.—Saturday Evening Post.

## PRECAUTION.

Little Girl—No, Willie, mamma said I mustn't even kiss anybody. Don't you know you'd get microbes and I s'pose then I'd get yombrocles.

## ON TACT.

Chancellor James R. Day was once advising a young undergraduate of Syracuse university to cultivate tact.

"But, alas," he said, "I fear that advice on such a subject must always be wasted. On tact the last word was spoken by Barley d'Aureville when he said:

"If tact could be bought, only those already possessed of it would want to buy it."

## NO HARM DONE.

Goshart—You didn't actually tell him that I didn't think him much of a fellow?"

Wiseman—Oh, I wouldn't have had you do that for the world—

Wiseman—Nonsense! That doesn't hurt him. It only makes him pity you.

## A WOMAN'S WAY.

"Why is it, dear, that you persist in calling your husband a brute?"

"The best reason on earth, my dear."

"And that?"

"He does absolutely everything I wish him to do. He positively refuses to be contrary."

## HE ACCUSED AND PROFESSED AGAIN.

"Ah, at last I have it—the solution of that problem Professor Cube-Root and I were discussing last night. I must go."

"And show it to him at once."

## EMBARRASSING FOR JOHN.

Bishop Coleman, of Delaware, was describing Wilmington some of the adventures that had marked his summer walking trip through Pennsylvania and Maryland. For many years the bishop has devoted his vacation to walking, covering in ten days 200 miles or more.

"The sexton of a quaint old Maryland church," he said, "showed me through the cool, dim building one warm afternoon and as we were departing pointed to the Bible on the lectern and smiled."

"A strange thing happened last Sunday in connection with that Bible," he said. "We had a strange minister preaching here and when he opened the book he came upon a notice and read it out with all due solemnity."

"It was a request for the congregation's sympathy and prayers for John Q. Griggs, who had been deeply afflicted by the loss of his wife."

"The sexton paused and chuckled softly."

"You see, sir," he said, "our regular minister had been using that paper at a bookmaker more than a year and John Q. Griggs, in a native gray suit, sat in a front pew with the new wife he had taken just the week before."

## IMMATERIAL.

Aunt Hespsey was in ecstasies over the young lady her nephew, Ike, was going to marry. "I never saw her till last week," she said, "but I fell in love with her at first sight myself. She's good, sweet, amiable and as pretty as a picture."

"What's her name?" asked the listeners.

"Maria."

"Maria what?"

Aunt Hespsey wrinkled her forehead, pursed up her lips, looked at the ceiling and gave it up.

"I declare, I can't think of her other name."

The general laugh that followed this confession nettled Aunt Hespsey.

"What's the difference about her last name anyway?" she said, explosively. "It's only temporary. She's going to change it.—Youth's Companion."

## THE FIRST MEZZOTINT.

To Prince Rupert we owe the mezzotint process. Chancing one morning to be strolling through Brussels, he came upon a soldier cleaning his gun, which, having been left out in the rain all night, was somewhat rusty. To the rusted part the soldier applied a linen cloth, on which the continued rubbing left a rough pattern. This struck the mezzotint process as being capable of adaptation to the purposes of art, and, calling to his aid Vaillant, the printer, he carried the idea to a successful culmination.

## AUTHORITATIVE.

"The finest bit of scenery in your country, I understand," said the visitor from London, "is on the P. D. railroad."

"Who told you that?" demanded the New Yorker.

"No one," I gathered the information myself from a little guidebook I found in my hotel, don't you know."

## PUBLIC NOTICE

To the People of Mt. Sterling.

All persons in Mt. Sterling who hold themselves responsible for any weakness or suffering caused from old age, chronic coughs or colds, bronchitis, weak lungs, run-down conditions, stomach troubles, nervousness or poor blood when we are willing to sell them the real cod liver preparation, Vinol, and return their money if it does not benefit.

The reason Vinol is so successful in restoring health and creating strength is because it contains in addition to tonic iron all the medicinal elements of cod liver oil actually taken from fresh cod's livers, but without oil or grease to upset the stomach and retard its work.

Unlike old-fashioned cod liver oil and emulsions, it is deliciously palatable, agreeable to the weakest stomach, therefore, unequalled as a strength creator and tonic restorer.

Our local druggist, W. S. Lloyd, says: "It is because we know so well of what Vinol is made that we ask every run-down, nervous, debilitated, aged or weak person in Mt. Sterling, and every person suffering from stubborn colds, hanging-on coughs, bronchitis or incipient consumption to try Vinol on our guarantee." W. S. Lloyd, Druggist.

NOTE.—While we are sole agents for Vinol in Mt. Sterling, it is now for sale at the leading drug store in nearly every town and city in the country. Look for the Vinol agency in your town.

## Seven Years After Death.

The per diem of William Goebel, for the legislative session of 1900 and his salary as Governor of Kentucky for three days, was paid only Monday, February 4, seven years and one day after his death. State Auditor Hager issued warrants to cover the service, aggregating \$276.75, and Treasurer Bosworth mailed a check for that amount to Arthur Goebel, executor of the estate of his brother.

On January 20, 1900, ten days before he was killed, Senator Goebel had Clerk Claude Desha, of the Senate, issue a warrant or voucher to him for \$162.50, the amount then due him, and when he was shot the check of the State for that amount was found in one of his pockets. It was turned over to the executor, together with other papers, and was later destroyed in a fire at the business house of Lowry & Goebel in Cincinnati. For this amount a duplicate check was issued.

Of the remaining \$114.15 due, eleven days per diem was due at \$5 per day; one additional day, January 13, 1900, on which Senator Goebel sat as president pro tem of the Senate, \$5, and three days as Governor at \$18.05 per day, making \$54.15, makes up the total.

## Bride Dances Too Much.

Unconscious and partly paralyzed, Mrs. John Cosbick, a bride of a few days, was in a serious condition at Irwin, Pa., from overexertion at a dance following her wedding. The woman made the remarkable record of dancing almost continuously twenty-four hours, when she fell in a faint. According to Slavish custom, every young man dancing with a bride contributes a silver coin to the newly wedded pair which furnishes a nest egg to be used in setting up an establishment.

Many guests were present at the nuptials, and the bride was reluctant to stop the steady flow of money that was dropped into a dish that had been provided for the purpose.

## State Is for Taft.

It is the prevailing opinion among the Republican leaders that if a convention should be held this year to select delegates to a national convention that Judge Taft would sweep the State. Two-thirds of the strongest men within the party now favor Judge Taft. His personal knowledge of Kentucky politics and Kentucky men has also added to his strength.

## Judge Carroll Before The Court Of Appeals.

Judge Carroll, of New Castle, Ky., made one of the most eloquent appeals to that court in behalf of the Cummack Unit Bill that we have ever heard. In part he said: "The police power is an inalienable right that inheres in any democracy. It is the right of citizens to protect themselves against any evil, and can not be taken away, even by constitutional decrees. The people of Kentucky have the right to protect themselves from the liquor traffic in any manner they may elect. Under the constitution if they choose, but without any constitution if they see fit."

Then said he, "Gentlemen of this court, you are well acquainted with the history of Kentucky, and the struggle of her people. You know how we have suffered from the traffic in intoxicating liquors, and how for years we have struggled to get a measure through the Legislature that would enable us to throw off this yoke of slavery. The people of this Commonwealth are now looking to you for protection, and trusting that in some way you will be able to uphold this bill in the realm of law and help us to save our state, and our homes."

## Warfare Waged With Dread White Plague.

Organized effort is now being made throughout the United States to fight consumption. Spitting in public places is deprecated, as the disease is frequently contracted from dried sputum. Colds should not be neglected, as they leave the lungs in a peculiarly receptive condition for the tubercular germ.

## Challenge From W. S. Lloyd.

W. S. Lloyd, is seeking the worst case of dyspepsia or constipation in Mt. Sterling, Ky., or vicinity to test Dr. Howard's new specific for the cure of those diseases.

So confident is he that this remarkable medicine will effect a lasting cure in a short time, that he offers to refund the money should it not be successful.

In order to secure the quickest possible introduction W. S. Lloyd will sell a regular fifty cent package of this medicine at half price, 25 cents.

This specific of Dr. Howard's will cure sick headache, dizzy feelings, constipation, dyspepsia, and all forms of malaria and liver trouble. It does not simply give relief for a time; it makes permanent and complete cures.

It will regulate the bowels, tone up the whole intestinal tract, give you an appetite, make food taste good and digest well, and increase vigor. Joy and happiness will take the place of that "don't care whether I live or die" feeling.

## Another Physician Testifies.

Dr. McCormick, a physician and eminent scientist when lecturing before both houses of the Alabama legislature, said: "I don't believe whiskey is a good medicine. Where one life is saved by it one thousand lives are lost by it." At this he was cheered to the echo. That applause coming from the men it was very significant. Yes, the doctors of the land are changing their views very rapidly on this subject.

There are at least fifty congressmen from fourteen Southern States in Congress who are pledged to vote will vote for the Cummack bill, to protect local option territory from the shipment of liquor from other states.

## MARK TWAIN ADMITS IT.

Says It Was Not Right to Give Cat "Pain-Killer."

It was not right to give the cat the "Pain-Killer." I realize it now. I don't repeat it in those days. But in those "Tom Sawyer" days it was a great and sincere satisfaction to me to see Peter perform under its influence—and it actions do speak as loud as words, he took much interest in it as I did. It was a most detestable medicine, Perry Davis' Pain-Killer. Mr. Pavey's negro man, who was a person of good judgment and considerable curiosity, wanted to sample it, and I let him. It was his opinion that it was made of hell-fire.

Those were the cholera days of '49. The people along the Mississippi were paralyzed with fright. Those who could run away, did it. And many died of fright in the night. Fright killed three persons where the cholera killed one. Those who couldn't flee kept themselves drenched with cholera preventives, and my mother chose Perry Davis' Pain-Killer for me. She was not distressed about herself. She avoided that kind of preventive. But she made me promise to take a spoonful of Pain-Killer every day. Originally it was my intention to keep the promise, but at that time I didn't know as much about Pain-Killer as I knew after my first experiment with it. She didn't watch Henry's bottle—she could trust Henry. But she marked my bottle with a pencil, on the label, every day, and examined it to see if the teaspoonful had been removed. The floor was not carpeted. It had cracks in it, and I fed the Pain-Killer to the cracks with very good results—no cholera occurred down below.—North American Review.

## AMUSING OLD SIGNS.

In some old plates by Hogarth a shop sign is advertised by a head of John the Baptist, and in another plate the barber's sign is not only a colored pole, but also a hand drawing a tooth from a patient's head, who, judging by the expression of his face, seems to be suffering exquisite pain. Beneath this grimacing visage is the inscription, "Shaving, bleeding and teeth drawn with a touch."

A sign common to old shops was "The good woman," viz., a female without a head. The cynical meaning here is plain.

Nowadays along the coast, oyster or fishing vessels which wish to make known the facts that they are selling their hands host a broom to the masthead. This signal is known to all watermen.

An amusing sign was that of the "Three Loggerheads," that is, two grotesque wooden heads with the legend, "Here we loggerheads three be," the reader making the third.—The Sunday Magazine.

## DISTURBING QUESTION.

"What's the most frequent cause of divorce?" the lawyer was asked. "It is nearly incredible," he said, "but a thing that causes divorce often than you'd imagine is married people's quarreling over their rights to open one another's letters." "The husband will claim that he is entitled to open the wife's mail. The wife will claim that she is entitled to open the husband's. In the letters of neither will there be anything of a private or compromising nature; but nevertheless they both want to get their mail inviolate—it outrages them to have it opened and read."

"Quarrels over the letter opening question vex, I suppose, 90 per cent. of married couples. Of this 90 per cent. a distressingly large proportion go on from bad to worse till they wind up in the divorce court."

"So, young man, when you come to marry, leave your wife's mail alone, no matter how she may pry into yours."

## SNOW SHOVELING NEXT.

Sublimus—No, but I'll bet we'd due to have a heavy fall of snow pretty soon.

Critman—What do you mean? I don't understand—

Sublimus—Well, I stopped cutting grass nearly two weeks ago.—Philadelphia Press.

## TWO GROWLERS.

"I don't like the way that dog of yours growls at me," remarked the young man who was calling.

"O, that's nothing," replied the girl; "just wait till you hear papa."

## Seven Years After Death.

The per diem of William Goebel, for the legislative session of 1900 and his salary as Governor of Kentucky for three days, was paid only Monday, February 4, seven years and one day after his death. State Auditor Hager issued warrants to cover the service, aggregating \$276.75, and Treasurer Bosworth mailed a check for that amount to Arthur Goebel, executor of the estate of his brother.

On January 20, 1900, ten days before he was killed, Senator Goebel had Clerk Claude Desha, of the Senate, issue a warrant or voucher to him for \$162.60, the amount then due him, and when he was shot the check of the State for that amount was found in one of his pockets. It was turned over to the executor, together with other papers, and was later destroyed in a fire at the business house of Lowry & Goebel in Cincinnati. For this amount a duplicate check was issued.

Of the remaining \$114.15 due, eleven days per diem was due at \$5 per day; one additional day, January 13, 1900, on which Senator Goebel sat as president pro tem of the Senate, \$5, and three days as Governor at \$18.05 per day, making \$54.15, makes up the total.

## Bride Dances Too Much.

Unconscious and partly paralyzed, Mrs. John Cosibski, a bride of a few days, was in a serious condition at Irwin, Pa., from overexertion at a dance following her wedding. The woman made the remarkable record of dancing almost continuously twenty-four hours, when she fell in a faint. According to Slavish custom, every young man dancing with a bride contributes a silver coin to the newly wedded pair which furnishes a nest egg to be used in setting up an establishment.

Many guests were present at the nuptials, and the bride was reluctant to stop the steady flow of money that was dropped into a dish that had been provided for the purpose.

## State is for Taft.

It is the prevailing opinion among the Republican leaders that if a convention should be held this year to select delegates to a national convention that Judge Taft would sweep the State. Two-thirds of the strongest men within the party now favor Judge Taft. His personal knowledge of Kentucky politics and Kentucky men has also added to his strength.
